

## WEBEX CALLING MIGRATION FOR GOVERNMENT V1.0 (WEBEX-CALL-MIGRATE-GOV)

### WEBEX CALLING MIGRATION FOR GOVERNMENT V1.0 (WEBEX-CALL-MIGRATE-GOV)

This three-day instructor-led, hands-on course guides students through transitioning from Cisco Unified Communications Manager (CUCM) to Webex Calling within government networks. Students will conduct a Migration Readiness Assessment to ensure the environment is prepared for migration and learn to plan the transition of Cisco Phones and Jabber to Webex Calling. The course covers using Cisco Webex Control Hub for migration tasks, such as creating Webex Locations with PSTN, preparing BAT/CSV files, and utilizing the migration wizard for settings migration. Students will also learn to perform device eligibility checks and finalize the migration by uploading CSV files to CUCM for phone migrations.

Participants will gain practical experience by conducting a sample migration from CUCM to Webex Calling, followed by verification processes and decommissioning the old CUCM system. The course also introduces third-party tools to facilitate the migration process.
