Onsite ILT

About this Class

This five-day, instructor-led course is aimed at IT professionals eager to learn advanced functionalities and hybrid services of Webex for government applications. It provides deep insights into provisioning, administration, monitoring, and problem-solving for Cisco Webex integrations and Hybrid Services within governmental frameworks. The curriculum covers integrating Directory Services, Edge Audio, Edge Connect, Edge Mesh, Hybrid Security, and Single Sign-On with existing infrastructures. Participants will gain hands-on experience with the Webex Control Hub, exploring third-party application integration and managing an advanced Webex setup.
